

## Incentive Programs

Commuter Connections offers a host of programs that provide **cash and other incentives to commuters** to encourage the formation of carpools and vanpools, use of public transit, and other forms of more sustainable travel.

**CommuterCash** - a mobile app offering the best travel options for your route. Receive reward points for use of public transit, carpooling, bicycling, fuel-efficient driving, or other environmentally friendly ways to travel. Trade in your points for **cash payments of \$10 to \$50**, PayPal or a host of other great options.

**CarpoolNow** - a real-time mobile app for ridematching. Works like ridehailing services except the driver is commuting to/from work and the passenger's ride is free. Drivers picking up commuters for their carpool **receive a \$10 cash payment per trip**.

**'Pool Rewards** - start or join a new carpool and each person receives **daily cash payments of \$5**, over a 90-day period. Start or join a new vanpool with seven or more total occupants and the vanpool receives a recurring **\$200 monthly subsidy**.

**Flextime Rewards** - be flexible about your commute arrival and departure times. Get real-time notifications about traffic congestion along your route with the **CommuterCash app**, before you head out the door. Delay your departure to avoid peak congestion and earn points equal to **\$8 per trip**, when your commute travels along designated bottleneck corridors.

**Guaranteed Ride Home** - provides commuters who use alternative transportation methods at least twice a week with up to **six FREE rides home** per year during unexpected illness, emergencies, or unscheduled overtime. Rides provided by taxi, Uber, or car rental.

*All programs are free and each have specific rules and restrictions and require setting up a free Commuter Connections account. Maximum calendar year **total payout per person is \$600 a year** for all programs combined.
